International Guest Lecture was organized at DYPIM (Ambi) for the MBA first and second year students on the topic “Emergence from exponential future” for 2 hours from 11-1pm. Almost 60 students were present for the session. Miss Trupti gave a brief introduction of the guest and Hon. Director Dr. Varsha Bihade felicitated the guest by offering a small token of thanks.

Mr. Sameer lecture revolved around the introduction of present and future and the way to emerge from the future instead of looping with the past. He quoted “What you do in dark will bring you in light” His words carried a lot of weight in the minds of the students. He inspired the students with many real life learning. He made them believe in oneself and if ones desire for something they definitely achieve it.

He motivated the students and connected them with his inspiring words. He groomed the intellectuals for the future as well as he added that “dream bigger in life” “what you believe is what you become”. These quotes ran all through the mind of the students and thus at the end we could see that we had so many positivity in the classroom atmosphere.
