## Vision

- To provide a stream of quality and skilled diploma engineers as per the requirement of industry and stakeholders.

## Mission

- To design the programme which contribute to explore the potential of young minds at early age and create a career path for the main stream.
- Diploma Engineering Programme are designed and focused on practical and skill oriented training.
- Provide students to industry with job related engineering knowledge, scientific skills, computing and analysis, mathematical techniques with better communication skills.

# 4. INDUSTRY

## Programme Objectives

01

### Quality and Value Based Education

Provide quality and value based education that transform students through academic rigor

02

### Science, Math, Technology and Research

Develop the scientific, technology and research based approach

03

### Innovation and Entrepreneurship

Learn innovation and entrepreneurship skills in new and emerging field

04

### Problem Solving

Experiment, develop prototype and give solution to the community, industry and nation

# Diploma Programme

01

## Computer Engineering

Learn basics of computer engineering, computer graphics, data structure using 'C', Data base management system etc.

02

## Civil Engineering

Learn about basics of Civil Engineering, Stress, Strain Calculations, Surveying, Levelling, Theodolite, Total Station, etc.

03

## Mechanical Engineering

Learn basics of Mechanical Engineering, Strength of Materials, Thermal engineering, engineering metrology, etc.

04

## Automobile Engineering

Learn basics of Automobile Engineering, automobile transmission systems, automobile engineering drawing, etc.

05

## Electronics and Telecommunication Engineering

Learn basics of E&TC, Digital Techniques, Applied Electronics, Electronics measurement systems and instrumentation etc.

# Three Years at Campus

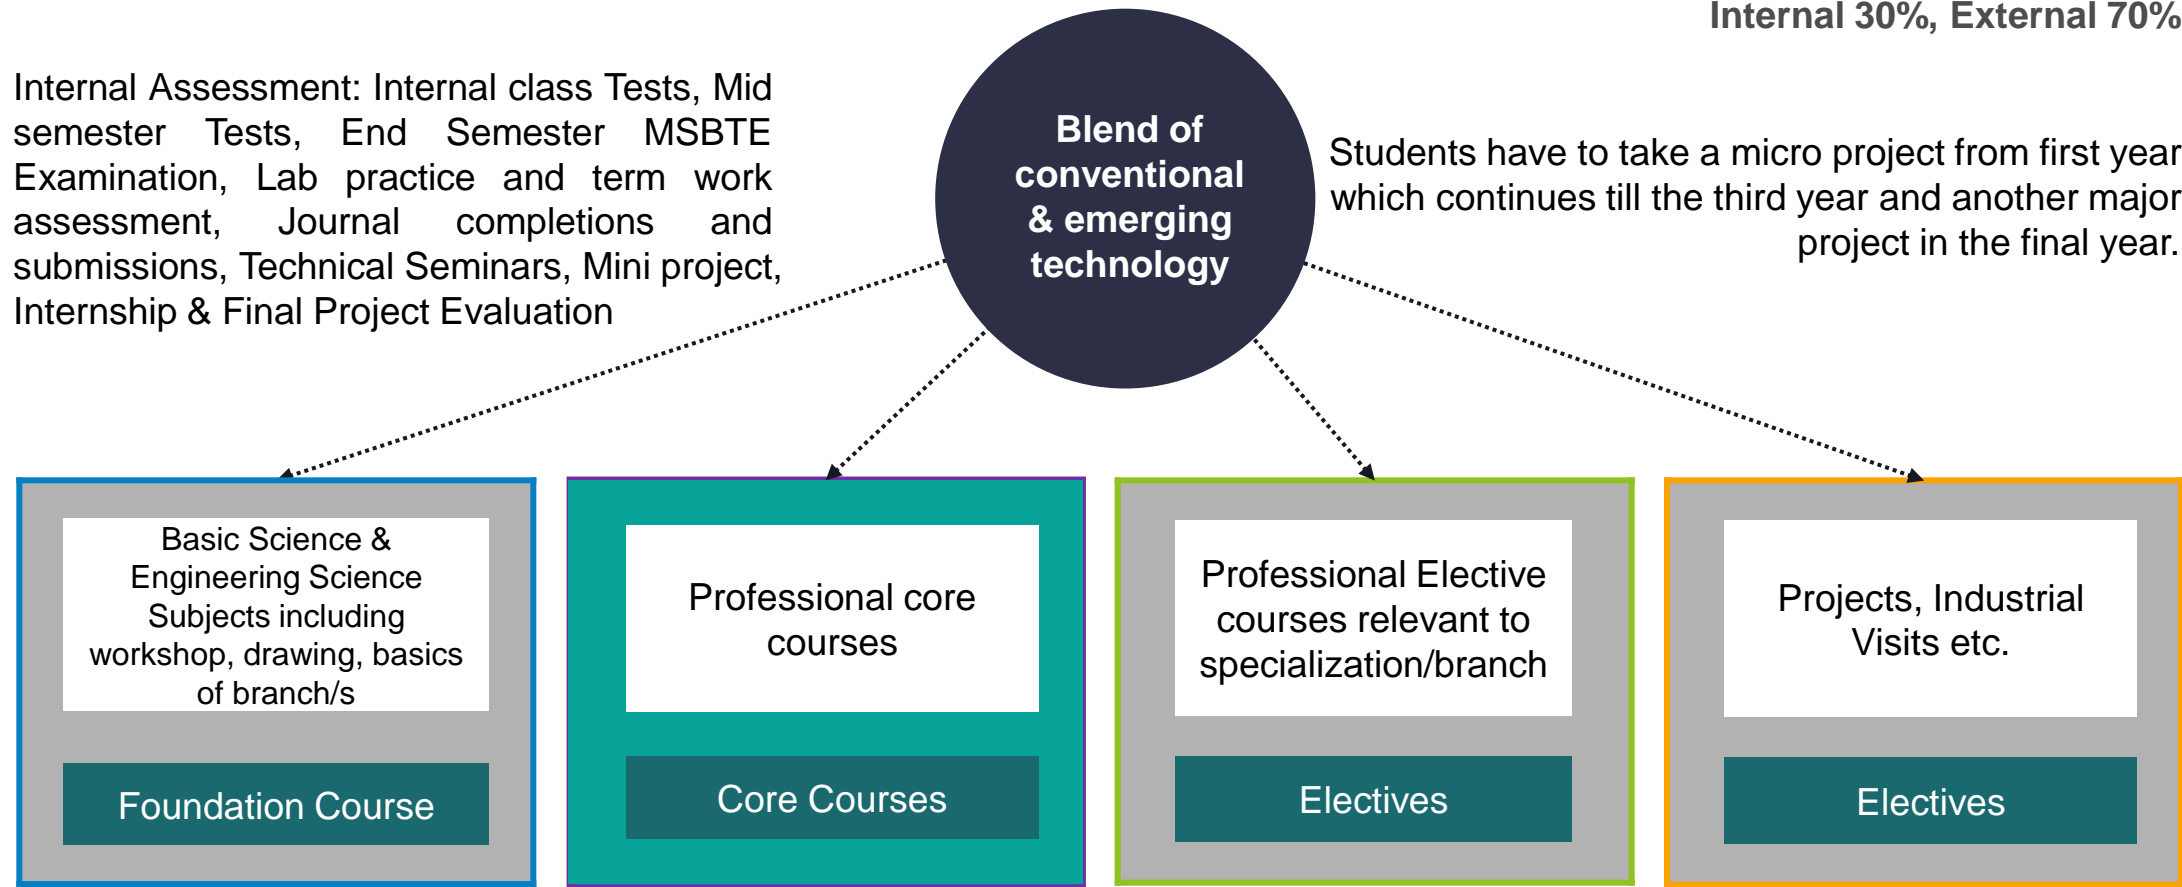

# Programme Structure

## Continuous Evaluation:

Internal Assessment: Internal class Tests, Mid semester Tests, End Semester MSBTE Examination, Lab practice and term work assessment, Journal completions and submissions, Technical Seminars, Mini project, Internship & Final Project Evaluation

## Assessment Pattern: Internal 30%, External 70%

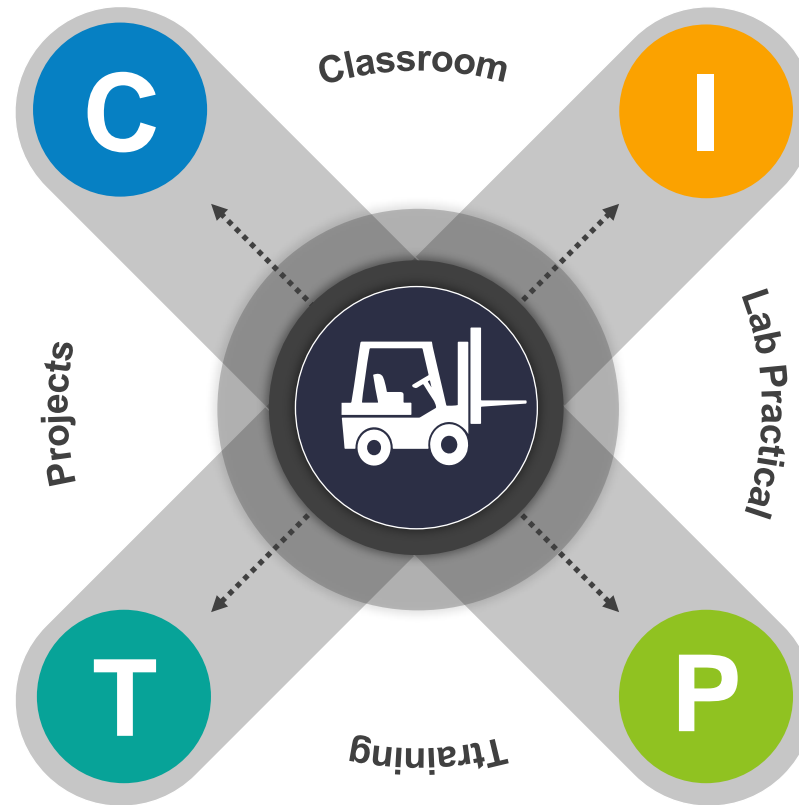

# Programme Delivery

## Classroom Teaching

Classroom teaching with the use of interactive webinars & Videos to bring experience & contemporary trends through interactive sessions.

## Technical and Soft Skill Training

Technical & Soft Skill training programmes will be organized as value addition.

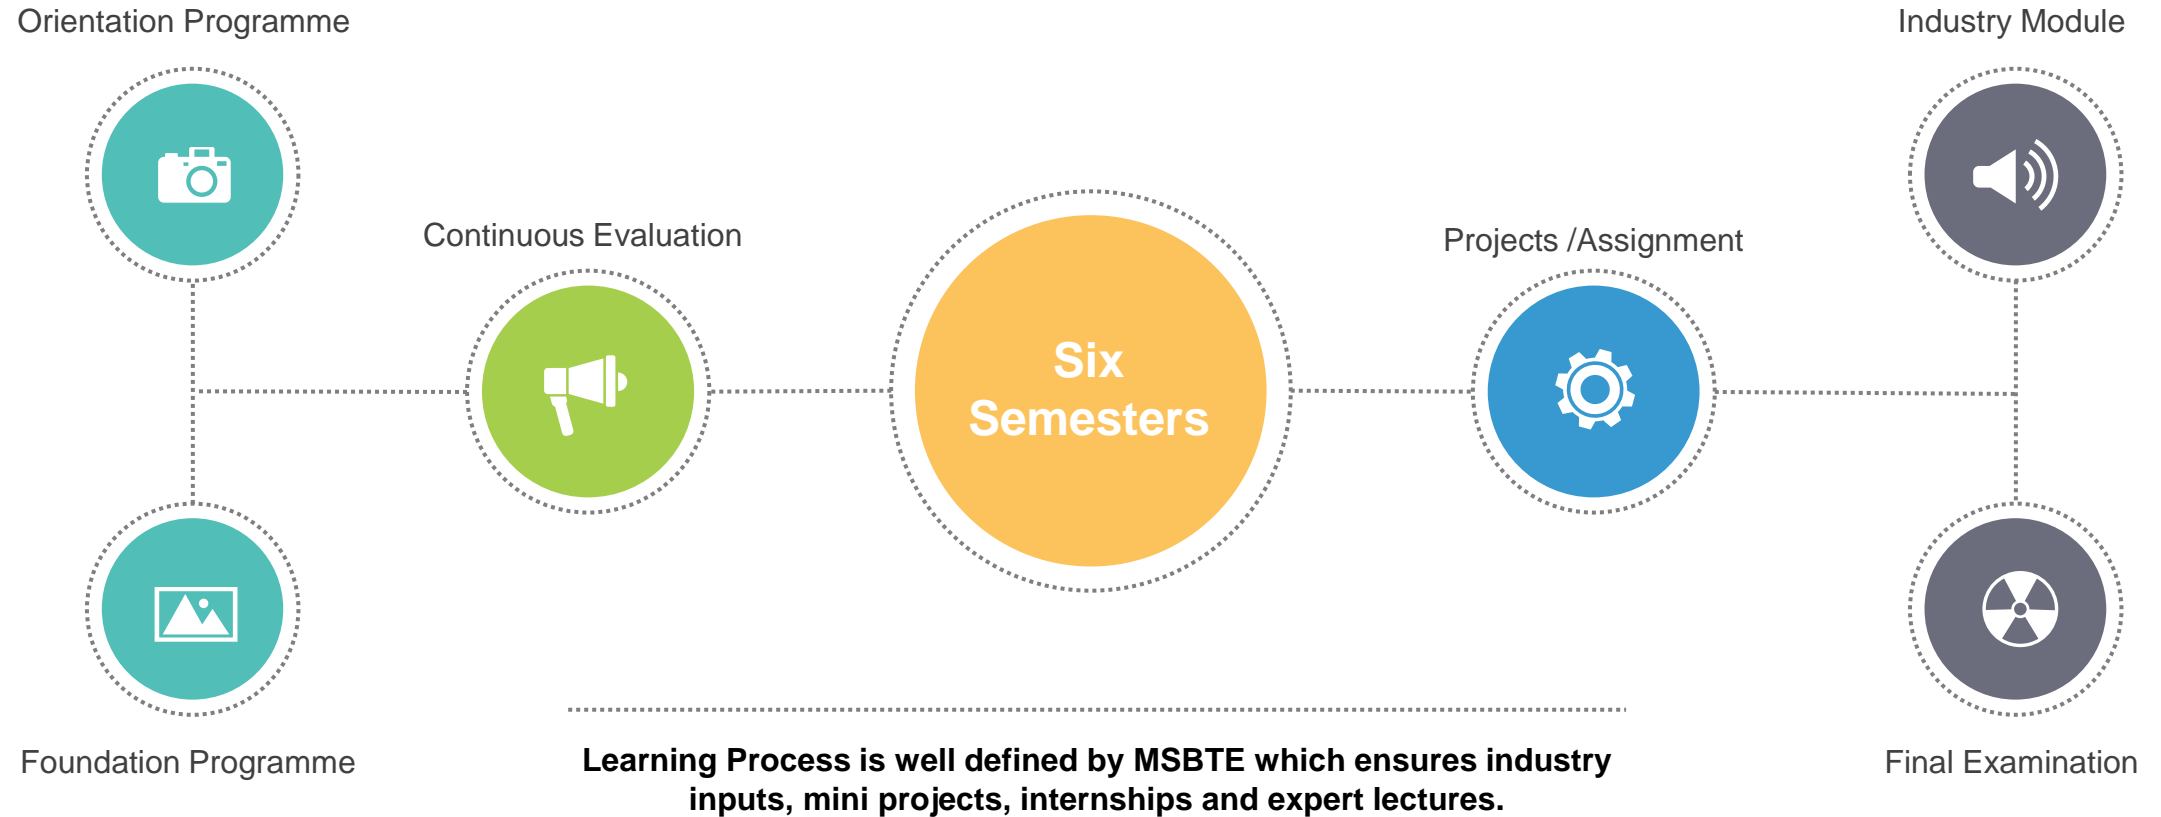

## Internship

Compulsory internship of two months duration, during which students work on various industrial aspects, and prepare a report and deliver a seminar in the classroom.

## Practical and Group Assignment

Continuous assessment process, includes, Practical, Group assignments & Mini projects

# Learning Process

# Internship and Projects

## Process Development

Students identify the ongoing industry project problems and work on providing solutions by preparing prototype.

## Experiments

Laboratory experiments are conducted by the students as prescribed by MSBTE and make calculations in the journals provided and submit it at the end of the semester.

# Center for Industry Academic Partnership

Industry Partnership | Collaborations | MOU |

## Proximity to Indian Corporates in Mumbai and Pune

Our campus has become the “Seat of Education and Knowledge”. It is preferential education destination for students. Campus is equally distanced from Pune and Mumbai. Due to which academicians, industry practitioners and industry from India’s Financial Capital Mumbai are partnered and providing training, internship and placement.
